FIG. 5

Figure 1 is a log-log plot showing the relationship between Strain Range (%) and Cycles to Failure. The y-axis represents Strain Range (%) from 0.4 to 1.8. The x-axis represents Cycles to Failure from 10 to 10,000. Two curves, A and B, are plotted. Curve B is the upper curve, and Curve A is the lower curve. Both curves show a decreasing trend of strain range with increasing cycles to failure.

Cycles to Failure	Strain Range (%) - Curve A	Strain Range (%) - Curve B
100	1.00	1.45
1000	0.90	1.35
10000	0.60	1.20
